

Date: 14th January 2023

Dr. Marwa Eltanahy
Mirdif, 55C Street.,
Dubai- UAE

Letter of Appointment

Dear Dr. Marwa Eltanahy,

I am delighted to inform you that you have been selected to serve as a non-executive board member for the STEM Best Practice organization. Your extensive expertise, dedication to advancing STEM education and practices, and your exemplary leadership qualities make you an invaluable addition to our team.

Expectations and Responsibilities:

- **Strategic Guidance:** Provide strategic guidance and insights to help shape the direction and success of the STEM Best Practice organization.
- **Participation:** Attend board meetings, discussions, and planning sessions to contribute to the development and execution of organizational initiatives.
- **Advocacy:** Act as an ambassador for STEM Best Practice, promoting its mission and objectives within your professional network and beyond.
- **Review and Feedback:** Review proposals, projects, and organizational materials, providing valuable feedback and recommendations to enhance their effectiveness.
- **Collaboration:** Collaborate with fellow board members, stakeholders, and partners to foster collaboration, innovation, and excellence in STEM practices.
- **Representation:** Represent STEM Best Practice at relevant events, conferences, and meetings, advocating for best practices and fostering partnerships and alliances within the STEM community.

Terms of Appointment:

Your appointment as a non-executive board member is for a term of 2 years, commencing from January 2023 to December 2024. This term may be renewable upon mutual agreement between you and the organization. Your participation is voluntary, and there is no financial compensation associated with this role.

We are confident that your expertise, passion, and commitment to excellence will greatly contribute to the success and impact of STEM Best Practice. Your appointment reflects our trust in your ability to help advance our mission and objectives.

Thank you for accepting this appointment, Dr. Marwa. We eagerly anticipate the opportunity to work closely with you in driving positive change and promoting best practices in STEM education and beyond.

Warm regards,

Bibin Boby

Director of Education
